La collezione Syn indaga la relazione tra volumi multiformi che si incontrano, unendosi. Questa famiglia si declina in due tavoli da pranzo, con piano tondo e rettangolare, che vedono protagonista la base composta da un gioco di forme e materiali. La base rappresenta il cuore del progetto: due forme apparentemente lontane, un parallelepipedo e un cilindro, si intersecano tra loro creando un unico maestoso volume.

The Syn collection investigates the relationship between multiform volumes that combine to create a unique piece of furniture. This family is declined in two dining tables, with round and rectangular tops, whose protagonist is the base composed of an interplay of shapes and materials. The base represents the heart of the project: two seemingly distant shapes, a parallelepiped and a cylinder, intersect each other creating a single majestic volume.
