Darts Cabinet

Description

Argo, luxury cabinet for darts, is a real work of art. The doors are covered in veneer wood, giving the furniture a very contemporary look and hiding the true heart of the piece: the target. The target is in African Sisal, a natural fiber that does not allow the creation of holes. A printed foam with a geometric pattern, placed around the target and on the inside of the doors, preserves the furniture from unlucky shots.

The luxury cabinet for darts also includes two sets of darts (6 pieces) neatly placed in specific lateral spaces. The Vismara darts cabinet is the perfect accessory to embellish and complete private game rooms and all areas of a luxury home.
