Vetra

Un mobile concepito come una struttura architettonica, passando attraverso volumi semplici, compatti, solidi. La base monolitica forma il principale sostegno degli elementi contenitori, con ante o cassettoni. I singoli moduli, disponibili in tre larghezze, si prestano a un gioco di incastri nel basamento, e possono essere posizionati liberamente lungo i piani di appoggio, insieme anche a due diverse dimensioni di cuscini cilindrici, per creare composizioni versatili, in risposta a esigenze sia funzionali sia estetiche.

Vetra is a piece of furniture conceived as an architectural structure, that is built through simple, compact, and solid volumes. The monolithic base forms the main support of the storage elements, with doors or drawers. These separate units, which come in three widths, can be freely positioned along the base, combined also with two different sizes of cylindrical cushions, to form a variety of compositions that meet both practical and aesthetic needs.
