

Struttura: giroletto monoscocca autoportante in legno multistrato di forte spessore. Il giroletto è progettato per accogliere al suo interno molle insacchettate ricoperte in superficie da uno strato di poliuretano espanso ad alta resilienza (esente da CF), successivamente rivestito da un tessuto tecnico traforato, che permette una maggiore traspirazione della struttura. Un pannello di legno multistrato forato, posto alla base delle molle, agevola l'aerazione.

Testata monoscocca realizzata in legno multistrato, imbottita con poliuretano espanso a quote differenziate ad alta densità, (rivestita con trapuntino di fibra di poliestere termolegata traspirante accoppiata con tela di cotone bianca analergica). Giroletto e testata rivestiti con fibra termolegata ed accoppiata con tela di cotone bianca che conferisce morbidezza e soffici ta alle imbottiture isolandole dal tessuto, garantendo igiene al prodotto.

La confezione della fodera della struttura (sommier e testata)   caratterizzata da cuciture asimmetriche che uniscono, attraverso una caratteristica doppia cucitura, le varie parti di tessuto o pelle precedentemente accoppiate ad una fibra termolegata con la tela di cotone bianca.

La particolare confezione   contraddistinta ulteriormente da un profilo, che esalta il grafismo couturier, tratto distintivo del sistema.

Sfoderabilit : rivestimento completamente sfoderabile in tessuto o pelle. La rimozione della fodera della testata   possibile sfilando la testata dal sommier tramite un sistema di innesto e sgancio rapido.

Piedi: principali e portanti in estruso di alluminio verniciato colore Black Coffee con finitura lucida anti-touch oppure cromato. L'appoggio a terra   inoltre garantito da piedini in metallo verniciati lucido anti-touch color nero. Scivolante protettivo in SEBS e polietilene di colore nero.

N.B.: data la struttura del letto, non   possibile inserire la rete e regolare l'altezza del materasso.

PANCHE

Struttura: in legno multistrato di vari spessori. Preparazione della struttura sedile in poliuretano espanso ad alta resilienza composta da numerosi strati di quote differenziate.

La struttura del sedile   rivestita da un trapuntino di piuma d'oca canalizzata ad alto spessore, per conferire grande soffici ta ed aumentare il comfort.

Structure: one-piece free-standing bed frame in extra-thick plywood. The bed frame is designed to accommodate pocket springs covered with a surface layer of high-resilience (CF-free) polyurethane foam. It is then covered with perforated technical fabric that allows greater circulation of air throughout the structure. A perforated plywood panel, placed under the springs, facilitates air circulation.

The one-piece headboard is made of plywood padded with high-resilience variable-density polyurethane foam (encased in breathable quilted heat-bonded polyester fibre laminated to hypoallergenic white cotton fabric). Bed frame and headboard are then covered with heat-bonded fibre laminated to white cotton fabric that lends a soft fluffiness to the padding while isolating it from the upholstery fabric, ensuring the product is hygienic.

Tailoring of the structure upholstery (bed frame and headboard) is characterised by asymmetrical double-stitched seams that join the various pieces of fabric or leather previously laminated to heat-bonded fibre with the white cotton fabric. This singular tailoring process is further distinguished by piping, which enhances the haute couture aspect of the workmanship, a distinctive trait of the system.

Covers: upholstery in fabric or leather is completely removable. The headboard upholstery can be removed by lifting the headboard out of the bed frame using the quick set and release closure system.

Feet: primary and weight-bearing in extruded aluminium varnished polished Black Coffee colour with anti-fingerprint finish or Chromed. Support is further guaranteed by metal feet with varnished polished anti-fingerprint black colour finish. Black protective SEBS and polyethylene glides.

N.B.: given the structure of the bed, it is not possible to insert a slatted base or adjust mattress height.

BENCHES

Structure: in plywood of various thicknesses. The seat structure is made of numerous layers of variable-density high-resilience polyurethane foam. Seat structure is covered in lightweight quilted material filled with high-loft channelled goose-down padding, to lend greater softness and increase comfort.

Struktur: Selbsttragender, einteiliger Bettrahmen aus starkem Sperrholz. Der Bettrahmen enth lt einen Taschenfederkern, der mit einer Lage aus hochelastischem Polyurethanschaum bedeckt ist (FKW-frei), die mit einem gelochten Funktionsgewebe bezogen ist, das die Atmungsaktivit t der Struktur erh ht. Eine perforierte Sperrholzplatte an der Basis der Federn erleichtert die Bel ftung.

Einteiliges Kopfteil aus Sperrholz, Polsterung aus PU-Schaum mit differenzierter, hoher Dichte (mit gesteppter Polsterung aus atmungsaktiver, thermobondierter Polyesterfaser mit Bezug aus wei er, antiallergischer Baumwolle).

Bettrahmen und Kopfteil gepolstert mit atmungsaktiver, thermobondierter Faser kombiniert mit wei em Baumwollstoff, der den Polsterungen Weichheit verleiht und sie von dem Gewebe isoliert, so dass die Produkthygiene garantiert wird.

Die Konfektionierung des Bezugs der Struktur (Bettrahmen und Kopfteil) ist durch asymmetrische N hte charakterisiert, die die verschiedenen, auf eine Unterlage aus thermobondierter Faser mit Bezug aus wei er Baumwolle aufgebrachten Stoff- oder Lederanteile mit der charakteristischen Doppelnaht miteinander verbinden.

Die besondere Konfektionierung zeichnet sich au erdem durch ihr Couture-Design aus, das ein Erkennungsmerkmal dieses Sofasystems ist.

Abziehbarkeit: Der Stoffbezug oder Lederbezug ist komplett abziehbar. Um den Bezug des gepolsterten Kopfteils abzuziehen, kann das Kopfteil mit einer Schnellkupplung aus dem Bettrahmen ausgeh ngt werden.

F  e: Tragende Hauptf  e aus extrudiertem Aluminium gl nzend lackiert in der Farbe Black Coffee Anti-Fingerprintfinish oder verchromtem Aluminium. Auflage auf dem Boden mit Metallf  en mit gl nzender Anti-Fingerprint-Lackierung in der Farbe Schwarz. Schutzgleiter aus SEBS und Polyethylen in Schwarz.

N.B.: Aufgrund der Bauweise des Betts ist es nicht m glich, den Lattenrost einzusetzen und die H he der Matratze zu verstellen.

B NKE

Le cadre de lit est con u pour accueillir des ressorts ensach s recouverts en surface d'une couche de mousse polyur thane haute r silience (sans CFC), recouverte ensuite d'un tissu technique ajour , qui permet   la structure de mieux respirer.
