Leyva

Designer Giuseppe Viganò
Produzione / Production year: 2007 - 2016

Descrizione

Tavolino dalla struttura “a griglia” in tondino di ferro verniciato e saldato a quadri regolari, sofisticato e poco invasivo alla vista, decora il living room con un tocco di leggerezza e contemporaneità. Della collezione “Leyva” fa parte anche una libreria con la medesima struttura dal design lineare ed essenziale. La sua silhouette snella e minimale evoca un’idea di grande leggerezza, rendendola inseribile in qualsiasi ambiente, sia posizionata a parete che appoggiata a terra. Perfetta in soggiorni contemporanei, trova la sua collocazione ideale anche in ambienti di stile industriale ma può essere affiancata, come nota inattesa, anche ad arredi classici. Mensole mobili e basamento, per la versione a terra, sono in lamiera verniciata.

Dal 2024, sono coordinabili al prodotto i vassoi in vetro Petits Transparents disponibili in quattro formati e due finiture.

Struttura

I tavolini sono in tondino di ferro dal diametro di 6 mm verniciato e saldato a quadri regolari di circa 8 x 8 cm. Prodotto coordinabile con Petits transparents, vassoi in vetro dallo spessore di 10 mm.

Le librerie sono in tondino di ferro dal diametro di 10 mm verniciato e saldato con ripiani in rete elettrosaldata del diametro di 5 mm a maglie regolari da 10 x 10 cm.

Le librerie sono dotate di ripiani mobili in lamiera verniciata dallo spessore di 2 mm.

Description

The Leyva table is made of painted iron rod welded into a grille of uniform squares. Sophisticated and unintrusive, Leyva decorates the living room with a light, contemporary touch. The Leyva collection also includes a latticework bookcase with the same design, a clean-cut and essential silhouette. Its willowy minimal contours conjure up an airy lightness. Whether it is wall-mounted or free-standing, it will easily blend into any setting. Perfect for modern settings and a seamless solution for industrial surrounds, it could also bestow an unexpected twist on more classical décor. Moveable shelves and the base, for floor version, are in coated sheet metal.

From 2024, the Petits Trasparents trays, available in four sizes and two finishes, can be coordinated to the product.

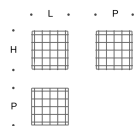

Structure

Low tables are in iron rod with diameter 6 mm painted and welded into a grille of regular squares approximately 8 x 8 cm. This product can be coordinated with Petits transparents, 10 mm thick glass trays.

Bookcases are in iron rod with diameter 10 mm painted and welded with shelves in electro-welded network of diameter 5 mm with regular squares 10 x 10 cm.

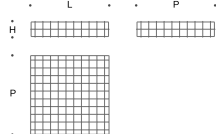

Bookcases are equipped with adjustable shelves in painted sheet metal with a thickness of 2 mm.
