# New York Soleil

Designer Sergio Bicego  
Produzione / Production year: 2018 - 2022

# Descrizione

La collezione New York Soleil pensata per l'outdoor, amplia la propria proposta e introduce il divano modulare. Caratterizzato dall'intreccio di schienali e braccioli e dall'iconica silhouette, questo progetto offre la possibilità di coordinare interi spazi open air con le proprie sedie, sgabelli e poltrona lounge.

New York Soleil interpreta l'arte di vivere l'esterno con poesia ed eleganza.

Completamente sfoderabile.

## **Struttura**

In acciaio inossidabile verniciato dal diametro di 16 mm per gli elementi componibili (laterali, centrali, lounge laterale e pouf) e la poltrona lounge; dal diametro di 12 mm per il divano e la poltrona col suo pouf; dal diametro di 11 mm per la sedia con o senza braccioli e lo sgabello alto o basso. Per tutti gli elementi, la struttura è rivestita con intreccio di cime di poliestere dal diametro di 4 mm.

## **Imbottitura**

Per divano, poltrona, sedia e sgabelli, il cuscino seduta è imbottito con particolare poliuretano 30 drenante ricoperto con fibra di poliestere 300gr/mq accoppiata a fodera in poliestere 100%. Gli elementi componibili (laterali, centrali, lounge laterale e pouf) e la poltrona lounge hanno il cuscino seduta realizzato con doghe flessibili in fibra di vetro inserite nell'anima di poliuretano espanso a quote differenziate (35IM e 25IMM), ricoperto con fibra poliestere 600gr/mq e rivestito con tessuto 100% poliestere idrorepellente e traspirante.

I cuscini schiena e i braccioli sono realizzati con una miscela di fibra poliestere e di piccoli inserti in visco elastico 50kg/m<sup>3</sup> avvolti in fodera TNT. Il tutto è rivestito con tessuto 100% poliestere idrorepellente e traspirante.

## **Telo di copertura (solo su richiesta)**

Materiale impermeabile ignifugo con cuciture nastrate e cordino con coulisse per il bloccaggio.

# Description

The New York Soleil outdoor collection expands its offer to include the modular sofa. Characterised by intertwined backrests and armrests and an iconic silhouette, this project offers the possibility of defining entire open-air spaces with its chairs, stools and lounge armchair.

New York Soleil interprets the art of outdoor living with poetry and elegance.

Fully removable covers.

## **Structure**

In 16 mm painted stainless steel for modular elements (side unit, central unit, side lounge and pouf) and lounge armchair; in diameter 12 mm wire drawn for sofa and armchair with its pouf; in 11 mm wire drawn for chair with or without armrests and for high or low stool. For all elements, structure is covered with plaiting of 4 mm diameter of polyester ropes.

## **Padding**

For sofa, armchair, chairs and stools, seat cushion is filled with a special 30 water-draining polyurethane, covered with polyester fiber 300gr/sqm on 100% polyester lining.

The modular elements (side unit, central unit, side lounge and pouf) and the lounge armchair have seat cushion made with flexible glass fiber slats inserted in the core of variable density polyurethane foam (35IM e 25IMM), covered with 600 gr/sqm polyester fiber and clothed with 100% water-repellent and breathable polyester fabric.

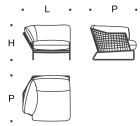

Back and arm rests cushions are made with a blend of polyester fiber and small inserts in elastic viscous 50kg/m<sup>3</sup> wrapped in TNT lining. The whole is covered with 100% water-repellent and breathable polyester fabric.

## **Cover (only on demand)**

Waterproof and fire-retardant cover with taped stitchings and trim with coulisse for the closing.
